YDT Deneme Sınavı 1

1. - 8. sorularda, cümlede boş bırakılan yerlere uygun düşen sözcük ya da ifadeyi bulunuz.

1. The diameter of the crater produced by the --- of the meteor that fell on Yucatán Peninsula is almost 100 km.
- A) invention
B) condition
C) impact
D) success
E) spread
2. There are effective mechanisms like taxes for a government to finance --- housing programmes for the poor and the homeless.
- A) trivial
B) affordable
C) invaluable
D) reluctant
E) unified
3. Unless coordinated action is taken at local and national levels ---, the short-term rental market will make the housing crisis even worse.
- A) destructively
B) intentionally
C) desirably
D) immediately
E) considerably
4. Our planet is an ever-changing system in itself: volcanoes erupt, earthquakes occur, and new rocks --- on the Earth's surface.
- A) emerge
B) address
C) produce
D) adjust
E) initiate
5. Due mainly to the fear of failure, high school students' interest in a certain lesson --- dissatisfaction and it becomes a topic they don't want to engage with for the rest of their lives.
- A) sets up
B) keeps up
C) works out
D) gives up
E) turns into
6. All vertebrates, according to the findings in a recently published article, --- into being from the same ancestor millions of years ago, but they --- into the four different groups we have today.
- A) had come / evolved
B) were coming / are evolving
C) came / have evolved
D) have come / would evolve
E) come / evolve
7. Oxytocin is a cardio-protective hormone, which --- that it protects the heart, and it does this by --- blood pressure.
- A) means / diminishing
B) is meaning / diminish
C) has meant / to diminish
D) will mean / having diminished
E) meant / diminished
8. The diverse culture of Spain reflects the characteristics of not only those --- the land, but also the artists who flourished there during the sixteenth century.
- A) to conquer
B) to be conquered
C) conquering
D) being conquered
E) conquer

YDT Deneme Sınavı 1

16. – 20. sorularda, boş bırakılan yerlere uygun düşen sözcük ya da ifadeyi bulunuz.

Soccer unites people with different professions and interests thanks to its simple and clear rules (16) --- being easy to play with limited equipment. Soccer games are socially significant in communities (17) --- Cameroon and many other African countries. Local conservation agencies use soccer to promote community-based conservation work for endangered species or other wildlife. Soccer focuses energy and engages people in opportunities to connect in effective ways that (18) --- by direct conservation messaging. (19) ---, teams are named after animals — the Drills, the Mangabeys — to foster sympathy for local wildlife. Additionally, and perhaps more importantly, these soccer games offer a space for villagers, local conservation agency staff and park rangers to learn from each other and gain a wider (20) --- into each other's lives.

16.

- A) in spite of
B) on account of
C) in addition to
D) different from
E) contrary to

17.

- A) over
B) across
C) beneath
D) among
E) onto

18.

- A) was not addressed
B) will not be addressed
C) may not be addressed
D) should not be addressed
E) did not have to be addressed

19.

- A) For example
B) Namely
C) However
D) Meanwhile
E) Moreover

20.

- A) disability
B) occurrence
C) hindrance
D) perspective
E) objection

21. - 28. sorularda, verilen cümleyi uygun şekilde tamamlayan ifadeyi bulunuz.

21. Paper cuts remind us that no matter how many times we have performed even a simple task, ---.

- A) failure might be a natural consequence of trying to achieve a goal
- B) we will find it quite easy to adapt to a new task at a new workplace
- C) our instincts are at work when it comes to avoiding danger
- D) we are capable of accidentally hurting ourselves
- E) the paper industry will always come up with new products

22. When it comes to Friday the 13th, people are cautious ---.

- A) but they will also have unlucky incidents in the following weeks
- B) so caution does not necessarily prevent dangerous accidents from happening
- C) although they are aware that the date is notorious for bringing unexpected events
- D) as well as gathering necessary information about the nonsense of this superstition
- E) because their culture has taught them to associate negative things with the date

23. Ever since the discovery of the exoplanet known as Proxima Centauri b in 2016, ---.

- A) people have wondered whether it could be capable of sustaining life
- B) scientists are trying to find a way to reach the newly-discovered planet
- C) other teams of scientists also tried to discover planets that can be inhabited
- D) NASA and other space agencies in the world are thrilled about the new planet
- E) new satellites have been launched to see the scale of global warming on Earth

24. Most of the seasonal flu viruses that we encounter copy themselves relatively undetected by our immune system ---.

- A) as long as doctors do their jobs and start to prescribe immune-strengthening drugs
- B) so our immune system detects them and launches a violent counterattack
- C) but flu viruses are tiny particles that can enter the cells of a bird or mammal
- D) as they have become well adapted to us as hosts over time
- E) and the immune system will even force infected cells to self-destruct to prevent the virus from spreading

YDT Deneme Sınavı 1

38. - 40. soruları aşağıdaki parçaya göre cevaplayınız.

As temperatures rise in the Arctic, permafrost — permanently frozen ground — is defrosting at an alarming rate. But the permafrost isn't the only thing in the Arctic that is melting. Exposed rock that was once covered in ice is dissolving, eaten away by acid. And the effects of this acid bath could have far-reaching impacts on global climate, according to a new study. Icy permafrost is rich in minerals, which are released when the ice melts. The minerals then become vulnerable to chemical weathering, or the breakdown of rock through chemical reactions, scientists recently reported. They investigated areas once covered by permafrost in the western Canadian Arctic, finding evidence of weathering caused by sulfuric acid, produced by sulphide minerals that were released when the permafrost melted. Another type of naturally occurring chemical erosion is caused by carbonic acid, and it also dissolves Arctic rock. But although carbonic-acid weathering locks carbon dioxide (CO₂) in place, sulfuric-acid erosion releases CO₂ into the atmosphere. Moreover, it does this in quantities that were not previously seen before, researchers wrote in the study.

38. It is made clear in the passage that rising temperatures in the Arctic ---.

- A) are responsible for the frightening rate of melting of the permafrost
- B) are melting permafrost as well as two types of acids
- C) have become a subject of many research attempts lately
- D) have long caused the dissolving of the ice in the poles
- E) have been responsible for an excess amount of carbonic acid in the atmosphere

39. Which of the following can be said about chemical weathering involving sulphuric acid?

- A) It was the first type of chemical weathering discovered by scientists.
- B) It only occurs in the Northernmost parts of Canada.
- C) It is extremely dangerous because it is harmful for the atmosphere.
- D) It occurs both naturally and due to human impact.
- E) It causes permafrost to melt down at a slower rate than carbonic-acid weathering.

40. What is the main purpose of the passage?

- A) To warn readers against the results of a scientific study of permafrost
- B) To explain a natural phenomenon called chemical weathering
- C) To compare and contrast sulphuric acid weathering and carbonic-acid weathering
- D) To give detailed information about the far-reaching effects of acid bath
- E) To inform readers about the meltdown of permafrost and its possible consequences

46.

Ronnie:

– **This article claims that Hitler’s invasion of the Soviet Union was a failure partly because of the resistance in Crete.**

Stan:

– **It sounds like an overstatement to me. A small island can’t have played such a big role.**

Ronnie:

– ---

Stan:

– **Well, I need to take a look at it then.**

- A) It says here that the local resistance caused significant damage to German morale and resources.
- B) You are talking about a small island in the middle of the Mediterranean, aren't you?
- C) Well, it also looks to me that he has overestimated the role of the local Cretans.
- D) It doesn't sound logical as the two venues we are talking about are so far removed from each other.
- E) You are always being suspicious about every little thing! And this article is no exception!

47.

Beyza:

– **I am a little prejudiced against eating something from a food truck.**

Darrel:

– **Why is that? I do it most of the time.**

Beyza:

– **Well, I think they might be a little unhygienic considering the limited space they have for cleaning and storage of foods.**

Darrel:

– ---

Beyza:

– **Well, I might give it a try then. I always remember the small make-shift trucks of food vendors in my country when I see a food truck.**

- A) I totally agree. I don't fancy those kokoreç vendors situated on every corner.
- B) To the contrary, they are big trucks that are fully equipped with great storage and cooking facilities.
- C) They are a cheap alternative for big fast-food chains although they are a bit unsafe.
- D) They are becoming more and more popular in the city and the ones selling tacos are relatively better.
- E) But this model is appealing to young, entrepreneurial types with little money, so I like it.

49. - 53. sorularda, verilen cümleye anlamca en yakın cümleyi bulunuz.

49. The anatomical structure of a root can vary, but, because it does not have leaves or knots, it will always be simpler than that of a stem.

- A) When it comes to anatomical structure, the root has a simpler one than that of a stem as it comes in various shapes and it lacks leaves or knots.
- B) Although the stem has different anatomic structure patterns, it has more complex structure compared to a root as it has leaves and knots.
- C) The anatomical structures of a root and a stem are similar with the exception of the presence of leaves and knots on the surface of the latter.
- D) If it weren't for the leaves and knots on the stem, its anatomical structure would be as simple as that of the root, which may come in different varieties.
- E) As the root has no leaves or knots, its anatomical structure will never be as complex as that of a stem although there can be changes in it.

50. While some kids are lonely because they have inadequate social skills, many intensely lonely kids have fine social skills.

- A) What distinguishes some lonely kids from many others with good social skills is that they do not have even average level social skills.
- B) A lot of extremely lonely kids have good social skills, but some kids end up being lonely due to their poor social skills.
- C) Social skills matter a lot as they determine whether some kids will end up being extremely lonely or not.
- D) Although some kids suffering from loneliness have enough social skills, many lack necessary social skills to stay away from loneliness.
- E) Lonely kids have two distinct characteristics, with one group having no social skills and the other group having good social skills.

54. - 58. sorularda, verilen durumda söylenmiş olabilecek sözü bulunuz.

54. Your friend wants to learn English and she has bought vocabulary flash cards to memorize vocabulary. Knowing that learning and using vocabulary instead of memorizing it is much more useful, you give her some advice, so you say: ---

- A) You aren't going to perform a play by Shakespeare, so you don't have to know vocabulary by heart; try reading in English.
- B) It is like memorizing a long poem; you just repeat the words a hundred times and you learn them.
- C) Don't waste your time memorizing words you'll soon forget; try using the new vocabulary you have learned in sentences.
- D) I have never been a good memorizer, but if you learn better that way, you can try it by all means.
- E) Learning a language is much more than memorizing some vocabulary; you should go to a country where it is spoken.

55. You promised your son to take him abroad on his next birthday, which is three months later. However, the currency of your country has lost a lot of value recently and it has become impossible to buy plane tickets let alone affording accommodation and food expenses. You have to cancel the trip, but it will devastate your son. You approach your son, who has been waiting for this trip eagerly, and try to persuade him by making another promise: ---

- A) You are a bright and understanding kid, so you know that it is impossible for us to go abroad this time.
- B) I am sorry, but we won't be going abroad for your birthday due to our economic condition; yet we will go next year, I promise.
- C) The country is going through hard times and I am sure you are aware of this, so we won't go abroad for your birthday.
- D) As long as you and I go on saving money, there is a slight chance that we can go abroad on your next birthday.
- E) With the current devaluation, it will take us years to go abroad again. I am so sorry son.

YDT Deneme Sınavı 1

62. Humans tend to be afraid of what they don't understand. Fear is often blamed for racism, homophobia and other sources of discrimination. --- Some technological achievements seem almost unrealistic, clearly surpassing expectations and in some cases human performance. In this case, the question "Should we be afraid of artificial intelligence?" comes to mind. The answer is "no." But not everyone agrees – many people, including the late physicist Stephen Hawking, have raised concerns that the rise of powerful AI systems could spell the end for humanity.

- A) Artificial Intelligence and fears surrounding it have been the hot topic in science circles for some time.
- B) Discrimination in the field of technology is also widespread, with less than 20% of the employees being female.
- C) Homophobia has evolved in such a way that even the gender of AI robots has been discussed.
- D) Fear is instinctive and it is no coincidence that those who fear new things are less educated than those who don't.
- E) So it's no wonder it also applies to new technologies as they are often surrounded with a certain mystery.

63. A major source of stress for university students living away from home for the first time can be a lack of perceived social support, if friends and family are no longer close by for a chat. The most important thing if you start to feel stressed is that you don't bottle up those feelings. Talk about it – with a parent, other family member, a friend or a tutor. Or contact your university's student well-being service. --- Studies have suggested that writing about your emotions can be useful for managing stress.

- A) Making time in your schedule to relax and socialise is also very important.
- B) Paying more attention to yourself and the world around you is known to reduce stress.
- C) Another approach could be to write about your feelings if nobody is around to talk to.
- D) The feelings we experience when we're stressed are due to hormone responses.
- E) Creating some "me time" for socialising, relaxing and exercise is key to managing stress.

YDT Deneme Sınavı 1

74. Bitki bazlı beslenme tarzlarını ve bitki bakımından zengin yaşamayı seçersek suyumuz, toprağımız ve yakıtımız daha verimli bir şekilde kullanılacaktır.

- A) Unless we opt for plant-based diets and plant-rich living, achieving efficiency in the use of our water, land and fuel will be a dream.
- B) If we opt for plant-based diets and plant-rich living, our water, land and fuel will be used more efficiently.
- C) Choosing plant-based diets and plant-rich living means that our water, land and fuel will be used more efficiently.
- D) Using our water, land and fuel more efficiently necessitates choosing plant-based diets and plant-rich living.
- E) It would be wise to opt for plant-based diets and plant-rich living as they bring about an efficient use of our water, land and fuel.

75. Birkaç şirket, bazı insanların çok daha uzun yaşamasını sağlayabilecek ömür uzatma yöntemleri geliştirmeye çalışıyor, ancak bazı etik ikilemler var.

- A) Trying to develop life extension methods to enable far longer lifespan for some people, some companies are facing ethical dilemmas.
- B) By extending some people's lives to a great extent, life extension methods developed by some companies are crossing ethical boundaries.
- C) If it weren't for some ethical dilemmas, some companies would try to develop life extension methods that could enable some people to live far longer.
- D) Several companies are trying to develop life extension methods that could enable some people to live far longer, but there are some ethical dilemmas.
- E) Several companies are trying their best develop life extension methods that could enable some people to live far longer and they don't care about ethical dilemmas.
