

1. The research aims to determine **whether** climate change is driven more by natural variability **or** by human-induced factors.
2. It is crucial to assess **whether** the policy change will benefit the economy **or** lead to unintended negative consequences.
3. The study investigates **whether** online learning platforms improve student engagement **or** aggravate existing educational inequalities.
4. Researchers must decide **whether** to use qualitative methods **or** quantitative approaches depending on the nature of the research question.
5. The committee will evaluate **whether** the project proposal aligns with institutional goals **or** requires significant revisions for approval.
6. It remains uncertain **whether** renewable energy sources can fully replace fossil fuels **or** if a hybrid energy model is more feasible.
7. The experiment will reveal **whether** the medication has a more significant impact on symptom reduction **or** only improves overall well-being marginally.
8. Scholars continue to debate **whether** globalization primarily fosters economic development **or** increases disparities between wealthier and poorer nations.
9. The analysis examines **whether** investing in preventive healthcare reduces long-term medical costs **or** places an unnecessary burden on public resources.
10. The success of the intervention depends on **whether** community members actively participate **or** remain resistant due to cultural or social factors.
